Letter: Lenzmeier would have my vote.

As a resident of Sherburne County, I cannot vote for the position of Stearns County commissioner. I have worked in Stearns County for 31 years as a firefighter. During my career and since my retirement, I feel that Commissioner Leigh Lenzmeier has a deep concern for the safety and well-being of Stearns County residents.

Lenzmeier has worked tirelessly to upgrade the interoperability communication systems of public safety divisions in the entire county. The success of that project allows all fire, local police and the county sheriff's departments to communicate with each other during major incidents, to help protect Stearns County citizens in time of need.

Leigh is consistently looking for a way to do the county's business in a safer and more financially efficient manner. ...

I believe that with a commissioner like Lenzmeier on the board this is one example of continued progress being made to make Stearns County safer and save the county taxpayer money.

Please vote for Leigh Lenzmeier.
